

**BOX95\_180x100x35\_2sh**  
**Размер штампа - 210x485**

The image shows a technical drawing of a box net, specifically a two-handle model. The drawing is presented as a flat net layout, consisting of several rectangular panels. The top and bottom panels are identical and feature a central handle structure. This handle is formed by two parallel horizontal lines, with the top line having a central rectangular cutout. The side panels are also identical and feature a central handle structure. This handle is formed by two parallel horizontal lines, with the top line having a central rectangular cutout. The net is designed to be folded into a box with a height of 35 units, a width of 180 units, and a length of 95 units. The drawing is enclosed in a green border, and the text is centered in the middle panel.
